Coulter Infiniti Coulter Infiniti... Giving Back to Our US Troops

[Coulter Infiniti](#) recognizes the importance of supporting our troops. To honor our military families, Coulter Infiniti pledged \$100 of every automobile purchased from 5/26-5/31 to support Operation Homefront of Arizona. Operation Homefront (OH) provides emergency financial and other assistance to the families of our service members and wounded warriors.

We are pleased to announce that during the Memorial Day week, we sold 18 vehicles, resulting in an \$1800 donation to Operation Homefront of Arizona. These funds will help assist in providing emergency financial and other assistance to the families of our service members and wounded warriors. We applaud the efforts of Operation Homefront of

Arizona and are pleased to partner with an organization working incredibly hard to provide support for those who have dedicated their lives to serve our country. Coulter Infiniti, a proud supporter of our American troops.

The G37 convertible is a joy to drive." Automobile Magazine

"The G's handling is also praiseworthy as the sedan attacks curves with aggression and precision, yet remains poised and compliant when driven over less-than-perfect pavement." Edmunds

G-Sedan...Performance and Artistry You Feel

The 2011 Infiniti G ranks high in the Upscale Mid-size Cars category. This ranking is based on the US News analysis of 60 published reviews and test drives of the [Infiniti G](#), and the analysis of reliability and safety data. That the 2011 Infiniti G manages to stand out from

other upscale mid-size cars should tell you it's good. But if you're not sold on it yet, maybe its sporty drive, luxurious interior and low price will seal the deal. Infiniti's G lineup has something for everyone. The G line has three different body styles ([sedan](#), [coupe](#) and [convertible](#)) three different engines (ranging from 218 to 348 horsepower) and rear- or all-wheel drive. Reviewers say the G is a

well-rounded car that can appease every potential buyer with its array of options. Although the Infiniti G leans towards being a performance car, it's still comfortable and luxurious enough for commuting. It balances fun and luxury.

"G37's eager V6 engine satisfies at any speed. Passing maneuvers are a breeze." Consumer Guide

"Steering feel is commendable, particularly with the Sport package's quicker steering ratio. This setup provides excellent feedback and a pleasant weightiness that builds progressively when cornering." Edmunds

The True Meaning of the 4th of July

Let us never forget the true meaning of the Fourth of July and what it means for our amazing country and the freedom we are afforded here in America. So many take the freedom and liberty they are granted here in the United States of America for granted and forget the true meaning of the day. We may dress up in our nation's colors of red, white and blue, but do we know what the true meaning behind our flag is?

The Fourth of July is a time to commemorate America's declaration of separation from Great Britain that was made on July 4, 1776. Our freedom and our democracy that we have been blessed with is a direct product of the sheer determination from our forefathers who worked to establish the United States of America as a free country. After voting for independence, Congress turned its attention to the Declaration of Independence, a statement explaining this decision, which had been prepared by a Committee of Five, with Thomas Jefferson as its principal author. Congress debated and revised the Declaration, finally approving it on July 4. In celebration of our independence it is nice to be able to share some inspiring quotes to help to remember and rekindle our patriotism. So, here are some Fourth of July quotes to share with those whom are important to you.

"Those who desire to give up freedom in order to gain security will not have, nor do they deserve, either one."
Benjamin Franklin

"The greatest lesson we can learn from the past is that freedom is at the core of every successful nation"
Anonymous

"Democracy is the government of the people, by the people, for the people" Abraham Lincoln

"Freedom is never given, it is won." -Anonymous

"Liberty is the right to choose. Freedom is the result of the right choice." Anonymous

"It is easy to take liberty for granted, when you have never had it taken from you." Anonymous

From all of us at Coulter Infiniti, we wish you a very Happy and Safe 4th of July

The History Behind Infiniti

Infiniti is the luxury car division of Nissan. The division was launched in November 1989 and has changed the world of luxury cars since then. Initially, the Infiniti car was introduced only to the American public. Today, however, it is sold in countless countries across the world and is a hot pick amidst various car lovers. There is absolutely no doubting the popularity that Infiniti cars enjoy in the car market today. However, things were not the same always. Initially, Infiniti cars were received with quite a lack-luster

response in the US.

Though the Infiniti car range came up with several models every now and then, it was the Infiniti Q45 that made it for the company. This car had one of the best engines

at the time, which made it one of the hottest selling cars in time. To add on, the Infiniti Q45 also had several other extraordinary features like a 278 hp V8 engine and a four wheel steering. Besides, it's luxurious interiors set it class apart from other cars

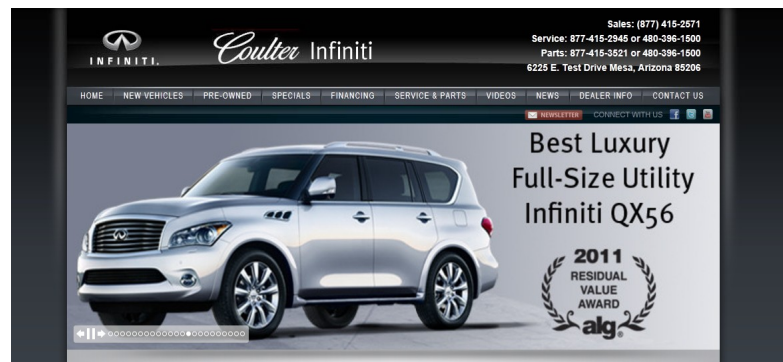

in the same segment. Infiniti stayed strong with the luxury SUV, the Infiniti QX4. The QX4 is one of the biggest hits in the history of luxury vehicles. The car offered all that was not offered by any other luxury vehicle in the segment. Even the top automakers like Acura were left to face the brunt of the competition with the launch of the Infiniti QX4.

With all this, it is needless to say that the history of Infiniti cars is rather interesting. Infiniti still remains one of the top selling lines in the US today. To see the newest line of inventory, visit us at

Staying Hydrated in the AZ Summer Sun

Your body depends on water for survival. Did you know that water makes up more than half of your body weight? Every cell, tissue and organ in your body needs water to function correctly. Water is essential for good health. There are different recommendations for water intake each day. Most people have been told they should be drinking 6 to 8 8-ounce glasses of water each day, which is a reasonable goal. However, different people need different amounts of water to stay hydrated. Most healthy people can stay well hydrated by drinking water and other fluids whenever they feel thirsty. For some people, fewer than 8 glasses may be enough. Other people may need more than 8 glasses each day.

Some people are at higher risk of dehydration, including those who get a lot of exercise, have certain medical conditions, are sick, or are not able to get enough fluids during the course of the day. Older adults are also at higher risk. As you age, your brain may be unable to sense dehydration and send the signals for thirst.

TIPS FOR STAYING HYDRATED

- *Keep a bottle of water with you during the day.*
- *If plain water doesn't interest you, try adding a slice of lemon or lime to your drink.*
- *If you're going to be exercising, make sure you drink water before, during and after your workout.*
- *Start and end your day with a glass of water.*
- *When you're feeling hungry, drink water. The sensation of thirst is often confused with hunger. True hunger will not be satisfied by drinking water. Drinking water may also contribute to a healthy weight loss plan, as some research suggests drinking water will help you feel full.*
- *Drink on a schedule if you have trouble remembering to drink water. For example, drink water when you wake up; at breakfast, lunch and dinner; and when you go to bed. Or drink a small glass of water at the top of each hour.*
- *Drink water when you go to a restaurant. Not only does it keep you hydrated, but it's free!*
