About this Guide ...

This maintenance guide indicates the scheduled maintenance required for your Land Rover vehicle. The services listed are the same operations included in the Vehicle Maintenance Requirements section of your Land Rover Owner's Manual. To ensure that you receive the greatest number of miles of satisfying operation from your Land Rover, certain maintenance procedures must be performed. It is your responsibility to have these maintenance procedures performed to comply with the terms of the warranties covering your new Land Rover.

24-Hour Roadside Assistance (800) 637-6837

Appointments

It is recommended that you call ahead to make an appointment. Please call (210) 638-7004.

Shuttle Service

We provide a free shuttle service within a limited radius to your home or place of work.

Rental Cars

Rental cars are available. See Service Advisor for details.

Loaner Car Policy

We supply free loaner cars to our customers who purchase a vehicle from us.

Cooling System Service

Severe corrosion which can occur when additives that protect the cooling system have been depleted.

One of our specially trained technicians operating state-of-the-art equipment will:

- Remove rust, scale, sludge, and old coolant from your vehicle's entire cooling system.
- Restore coolant and necessary additives.
- Install special conditioners to protect your vehicle's cooling system.

Rust, scale and sludge can plug cooling system fins, preventing proper circulation of coolant.

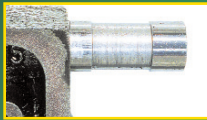

Our BG Cooling System Service will:

- ✓ Balance coolant pH.
- ✓ Prevent foaming.
- ✓ Prevent overheating.
- ✓ Control rust and corrosion.
- ✓ Extend coolant life.

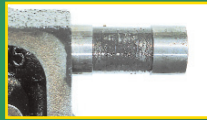

Transmission Service

Using a state-of-the-art equipment, one of our specially trained technicians will:

- Use a safe and effective cleaner to dissolve and suspend the varnish and gums in the transmission, valve body, torque converter, pan, filter element, transmission lines and transmission cooler.
- Rid the entire unit of all old fluid and suspended debris and install new ATF of the proper specification.
- Fortify the new fluid with seal conditioners, oxidation inhibitors and shift improvers.
- Road test your vehicle.

Valve body spool after BG Transmission Service.

Valve body spool with heavy deposit build-up.

Automatic transmission fluid before (left) and after (right) service.

Power Steering Service

One of our skilled technicians with specialized equipment will:

- Use a powerful cleaner to dissolve and suspend the varnish and gums in your vehicle's power steering unit.
- Rid entire unit of all old fluid and install new high-tech fluid for both conventional sector and rack and pinion.
- Road test your vehicle.

Our BG Power Steering Service will:

- ✓ Alleviate steering squeal caused by sticking valves.
- ✓ Correct that "jerky" feeling on the steering wheel.
- ✓ Help prevent fluid leaks.
- ✓ Reduce wear.

Rack and pinion

Grooves are worn into the soft metal of the spool valve housing by hardened seals. Metallic debris from such wear accumulates in the fluid causing premature component failure!

Power steering spool valve with hardened, cracked seals.

Dear Guest,

Congratulations on your Land Rover purchase, the finest automobile on the road today. It is our sincere pleasure to welcome you to Land Rover San Antonio. It is our mission to make you a customer for life.

This booklet is a clear, concise guide to maintaining your vehicle. Following its recommendations will ensure that your Land Rover stays in optimum condition and your Land Rover experience is a pleasurable one.

We will always do our utmost to deliver efficient, accurate diagnosis and repair. Our dedicated, highly skilled associates will do their best to deliver informed, accurate answers to your questions.

Your time is precious. For your convenience we have an appointment system that allocates manpower and parts so when you visit the dealership we'll be prepared to process your write-up and service your Land Rover with minimal delay.

Our goal is to achieve your complete satisfaction by providing the most convenient, efficient and pleasurable service you've ever experienced. To achieve this high level of excellence we depend on thoroughly trained, fully certified Technicians. We use genuine Land Rover parts and state-of-the-art tools and equipment.

Thanks again for choosing Land Rover San Antonio. We look forward to meeting all your service needs throughout your Land Rover experience and personally invite your questions, comments and concerns.

Sincerely,

Rick Holder
Centre Manager

CHECK OUT THE ADVANTAGES OF SERVICING YOUR VEHICLE AT LAND ROVER SAN ANTONIO:

- ✓ Factory-trained Service Advisors
- ✓ Factory-trained Technicians
- ✓ Genuine factory parts
- ✓ State-of-the-art equipment
- ✓ Guaranteed repairs
- ✓ High customer satisfaction
- ✓ Complimentary shuttle service
- ✓ Alternate transportation available

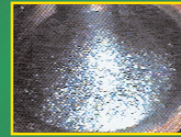

BG Lubrication and Fuel Deposit Control Service

One of our skilled technicians will:

- Change engine oil and filter
- Lubricate chassis
- Top off fluids
- BG MOA[®], a top-quality engine oil additive that fortifies oil, providing for optimum engine performance and long-lasting engine protection.
- BG CF5[™], a unique high-tech formulation designed to provide deposit control throughout the fuel system and maintain "like-new" engine performance.

BG MOA[®] prevented oil oxidation and kept the engine clean throughout a 240-hour triple-length Sequence IIIIF engine test.

Intake valves in test engine were dirty after 3,000 miles/4,800 km of driving.

Intake valves were spotlessly cleaned after one tankful of fuel using BG CF5[™] in the fuel tank.

BG Fuel/Air Induction System Service

Utilizing specialized tools, one of our trained technicians will immediately:

- Clean fuel injectors.
- Clean throttle body.
- Clean plenum and air intake.
- Clean intake valves and ports.
- Remove combustion chamber deposits.
- Correct balance of fuel and air in system.

Our BG Fuel/Air Induction System Service will:

- ✓ Reduce emissions.
- ✓ Restore horsepower.
- ✓ Increase fuel economy.

Intake valve with heavy deposit build up.

Intake valve after service.

BG Brake Flush Service

One of our skilled technicians will check the condition of your vehicle's brake fluid and, if necessary:

- Remove contaminated fluid from the entire hydraulic system.
- Replace the old fluid with Ultra-Dry BG DOT 3 or DOT 4 Brake Fluid, which is proven to prevent corrosion.

The entire brake system will be inspected for leaks, master cylinder corrosion, worn pneumatic parts, harmful varnish build up, broken or rusted bleeder valves, worn rotors and drums, and air in the brake lines.

Harmful deposits and varnish build-up—resulting from worn-out, oxidized brake fluid—are apparent on this brake master cylinder piston assembly.

Brake fluid before (left) and after (right) service.

60,000-MILE SERVICE / 48 Months

- Change engine oil and replace filter
 - Add BG engine oil additive*
 - Remove road wheels
 - Inspect brake pads and calipers for leaks and wear
 - Check tire pressure, set to recommended levels
 - Check tires for damage and tread depth
 - Inspect for under vehicle for fluid leaks
 - Inspect steering components for wear
 - Check suspension bolts and fasteners
 - Inspect brakes, fuel lines for leaks, corrosion or damage
 - Inspect PAS hoses for leaks, corrosion or damage
 - Inspect air suspension pipes and connectors/fittings for leaks or damage
 - Lubricate wheel carriers and install road wheels
 - Clean battery and terminals
 - Replace pollen filters
 - Inspect serpentine drive belt
 - Check and top-up brake PAS and windshield washer fluid
 - Change engine coolant
 - Replace spark plugs
 - Replace air cleaner element
 - Check condition of wiper blades
 - Lubricate door seals with silicon spray
 - Reset the service interval indicator
 - Check parking brake operation
 - Check operation of all lights, warning indicators and horn
 - Check operation of front/rear wiper washer systems
 - Check condition and security seats and seat belts
 - Perform under body corrosion warranty inspection (sills and wheel arches, main floor, sub frame, areas next to mounting and fuel tank fasteners, exterior paint, leading edge of hood, hood seams, lower body and doors, visible flanges in engine and luggage compartments)
 - Check for remedial work
 - Road test vehicle
 - Record performance in Passport to Service booklet
- Recommended Additional Services:**
- Four wheel alignment, rotate and balance tires
 - Fuel injection service
 - Fuel induction service
 - Air conditioning/heater
