

About Simoniz[®] GlassCoat[™]

The Simoniz[®] GlassCoat[™] process chemically bonds a brilliant and durable shield to the painted surface of vehicles.

It protects the surface from the damaging effects of acid rain, bird waste, tree sap, insects, ice melting agents and the sun's harmful UV rays, which automotive manufacturers' warranties typically exclude.

This Teflon[®]-based product protects fabric and leather seats, floor mats, door trim and the cargo area against staining from common spills such as coffee, baby formula, soft drinks, and other staining foods and liquids.

This protection system is designed by some of the best names in environmental protection: Simoniz[®] and Teflon[®].

The GlassCoat[™] appearance program gives LIFETIME* warranty coverage where the factory doesn't.

GlassCoat™

Technology Driven Protection

Guarantees protection from environmental conditions not covered by your vehicle manufacturer.

Exterior Protection

Why do I need Simoniz® GlassCoat™?

Simple. GlassCoat™ provides coverage to your paint that you do not get from the manufacturer.

How is my paint not covered by the manufacturer?

- In most cases, environmental acids and items that are harmful to the clear coat of your vehicle are not covered.
- Things like acid rain, tree sap, bird waste, decaying insects, hard water, ice melting agents, and UV damage from the sun are specifically excluded by the manufacturer's warranty.
- Paints are water soluble now and much softer than paints of the past. That's good for the environment, but requires more care of the vehicle.
- The softer the paint, the more easily it can be damaged.

How does GlassCoat™ protect my vehicle?

- GlassCoat™ is a clear liquid that is applied to the clear coat of your vehicle. Unlike traditional waxes, polishes, or sealants that cover the surface temporarily, GlassCoat™ reacts with hydrogen and oxygen to form a permanent glass-like coating.

The end result is an extremely clear, tough and durable ceramic film that adheres strongly to the clear coat.

What guarantee do I have that GlassCoat™ will protect my vehicle?

- When professionally applied, GlassCoat™ polymerizes the clear coat of your vehicle and forms a unique ceramic glass resin.
- To back up our GlassCoat™ product, we provide you with a LIFETIME* product warranty on new vehicles and up to 6 years on used vehicles. If the process fails, the warranty will repair or repaint your vehicle.

Interior Protection

How about the interior of my car?

- Simoniz® uses Dupont™ Teflon® Surface Protector's unique properties in a process that is applied to the seats, floor mats, inside door panels, and carpeting of your vehicle. This process protects your interior from stains from food products, food dye, lipstick, makeup, vomit, crayons, urine, blood, ink and clothing dyes. If the process fails, the warranty will repair or reupholster your vehicle carpeting or seats.

Rental Car

- If your vehicle needs to be repaired under the warranty, we pay for a rental car for 10 days at \$50 per day.

Other Features

- Zero deductible for repairs
- Fully transferable at no charge

*New vehicles receive a Lifetime warranty that lasts for as long as the original purchaser owns such vehicle. Pre-owned vehicles receive warranty terms of up to six years.
